## Sociology Student Spotlight

# ABIGAIL SQUICCIARINI

Abigail says that she enjoys studying sociology because “Sociology provides insight and provokes questions about societies and environments that aid in shaping us as individuals. I chose this major because it is one of the only areas I have studied that makes me excited to learn and discover more.”

Abigail has enjoyed all of the classes she has taken in the sociology department. She says, “It is an awesome experience learning from individuals who are so passionate about their area of study. This makes being a sociology major that much more inspiring and interesting at UB.”

After graduation, Abigail plans to pursue her masters in medical social work. However, she doesn't rule out the possibility that she might return to school later to work towards a PhD.

Congratulations Abigail!
